## **DETAILED ACTION**

### ***Drawings***

1. The drawings are objected to under 37 CFR 1.84(o) because they fail to show necessary textual labels of features in Fig. 1 as described in the specification. For example, placing the label, "data conversion module" with element 12, or "recipient party" with element 6, or "initiating party" with element 8, or "WAP mobile phone" with element 16, or "POTS handset" with element 14 of figure 1, etc...would give the viewer a clear understanding of the drawing. Please provide all textual labels for elements of figure 1. Also, any structural detail that is essential for a proper understanding of the disclosed invention should be shown in the drawing. MPEP § 608.02(d). A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

### ***Claim Rejections - 35 USC § 112***

18

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-31 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claim 1, the following limitation is vague: "wherein the system manages communications between an initiating party and a recipient party according to **the** or each appropriate rule."

Regarding claim 16 the following limitation is vague: "wherein the unique identifier is used to direct a request for communications from an initiating party to a system which manages communications between the initiating party and the recipient party in accordance with **the** or each rule."

The format of the claims 1- 31 are improper. The claims have no clear separation between the preambles and the bodies of the claim. It is difficult to determine distinct boundaries between precise claim limitations in the claims. See *Festo Corp. V. Shoketsu Kinzoku Kogyo Kabushiki Co.*, 234 F.3d 558, 56 USPQ2d 1865 (Fed.Cir.2000). Appropriate correction is required. Claims 2-15, 17-29 are rejected based on dependency.

### ***Claim Rejections - 35 USC § 101***

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 30 and 31 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. "A directory" is an abstract idea. It either is or analogous to a data structure.
